Organisation of stakeholders' workshop for GFM IGD

ENTSO-E is currently drafting the 1st wave of IGDs, related to NC RfG 2.0

Upon stakeholders' request, ENTSO-E is planning to organize one workshop for each IGD prior to the public consultation

Given that the GFM IGD is well advanced, ENTSO-E would like to start planning the date for the stakeholders' workshop in October in one of the following days:

Monday 19th – Friday 23rd

It could be **either a 2-3 hour online or a full-day hybrid workshop in our premises**, depending on stakeholders' preference

GC ESC associations' **experts are welcome**
