Electricity grid connection network codes amendment process - Update

GC ESC meeting – 16 March 2023

CNC - amendment process

- Connection codes 2.0 project group has been established under the ACER SOGC TF

Inter alia, it liaises with the priority stakeholders (ENTSO-E, EU DSO Entity, Cenelec, etc.), assesses the results of the public consultation, draft ACER proposal for amendments to the NC RfG and NC DC

- Members from **eight NRAs**
- Project group Members meet **biweekly** to update on the concluded work
- **Electromobility** – ACER held several meetings with ENTSO-E, EU DSO and electromobility stakeholders to inform its views

- ACER-NRAs to organise three dedicated **public** workshops (hybrid) covering the following topics:
 - Workshop on requirements for **Electromobility, heat-pumps** and **power-to-gas** - **17 April 2023**
 - Workshop on Advanced capabilities and Rate of change of frequency (RoCoF) withstand capability - **10 May 2023**
 - Workshop on Requirements for storage - **11 May 2023**Relevant European associations will be invited to present their views during these workshops. Materials will be provided prior to the workshops
- Public Consultation on the draft amendment proposals– late **Q2 2023**

Regarding the possibility of yet another round of public consultation in autumn 2023, before the proposal is submitted to the EC - ACER deems this is unnecessary as sufficient number of public consultations have been taking place.
