

**Annex 3 to the Third TCID Amendment:**

**Adapted Appendix A to the TCID - Definition List**

**Appendix A to the TCID - Definition List**

**1. Definitions:**

<b>Capitalised Term</b>	<b>Definition</b>
<b>Accession Form</b>	means the form in Appendix C (Accession Form);
<b>ACER</b>	means the Agency for the Cooperation of Energy Regulators established as per European Regulation 713/2009 of 13 July 2009;
<b>Affected TSO</b>	has the meaning set forth in Article 13.2.1.;
<b>Agreement (or TCID)</b>	means the TSO Cooperation Agreement for Single Intraday Coupling, including all the Appendices thereto, as amended from time to time;
<b>Amicable Dispute Resolution Period</b>	has the meaning set forth in Article 16.2.1.;
<b>ANIDOA</b>	means the All NEMOs Intraday Operational Agreement between the NEMOs, setting forth the terms of their cooperation for the MCO Function for the Single Intraday Coupling;
<b>Appendix</b>	means any document attached as an appendix to the Agreement;
<b>Article</b>	means an article of the main body of the Agreement, unless specifically mentioned otherwise;
<b>Best Efforts</b>	means the obligation for a Party, in the performance of its commitments under the Agreement, to take all reasonable actions and measures and more generally

	doing everything that can reasonably be expected from a normal, diligent and reasonable professional placed in the same circumstances;
<b>Breaching TSO</b>	has the meaning set forth in Article 13.2.1.;
<b>BRP</b>	means a Balance Responsible Party;
<b>BRP Contract</b>	means a contract between a BRP and a TSO or another designated Party;
<b>CACM</b>	means the Commission Regulation (EU) 2015/1222 of 24 July 2015 establishing a guideline on capacity allocation and congestion management, as amended from time to time;
<b>Calendar Quarter</b>	means one of the four quarters of a calendar year, i.e. from January to March, April to June, July to September and October to December;
<b>Central Administration Services</b>	means the performance of a set of configuration and administrative tasks assigned to a Party in relation to a functionality of the XBID System, such as the shared order book, the CMM or the SM;
<b>Change Control Procedure</b>	means the procedure set forth in Appendix E (TSO Change Control Procedure);
<b>Claiming Party(ies)</b>	has the meaning set forth in Section 1.1.6, 2.c) of Appendix G;
<b>CMM</b>	means the capacity management module of the XBID System;

<b>Concerned TSOs</b>	shall mean the TSO(s) who has/have authorized Explicit Participant(s);
<b>Confidential Information</b>	has the meaning set forth in Article 12.2.;
<b>Cooperation</b>	shall have the meaning set forth in Article 2;
<b>DAOA</b>	means the Day Ahead Operations Agreement entered into between the TSOs and the NEMOs for the SDAC, as amended from time to time;
<b>Data Protection Legislation</b>	means the GDPR and all other relevant national and European laws and regulations concerning data protection;
<b>Due Date</b>	has the meaning set forth in Section 2.1, 2 of Appendix G;
<b>ECP</b>	means the energy communication platform used by certain TSOs;
<b>ENTSO-E</b>	means the European Network of Transmission System Operators for Electricity;
<b>European Code of Conduct for Mediators</b>	means the Code of Conduct for Mediators as set up by the European Commission;
<b>Exit</b>	means the event in which a Party terminates on its own initiative its participation to the Agreement or the event in which the concerned Party is excluded from the participation to the Agreement, in accordance with Article 9.;
<b>Exit Date</b>	means the date the Exit becomes effective;
<b>Exit Plan</b>	has the meaning set forth in Article 9.3.3.;

<b>Exiting Party</b>	means a Party that terminates on its own initiative its participation to the Agreement or the event in which the concerned Party is excluded from the participation to the Agreement, in accordance with Article 9.;
[REDACTED]	[REDACTED]
<b>First TCID Amendment</b>	means the agreement between the Parties whereby a first set of amendments has been added to the Agreement;
<b>GDPR</b>	means Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC, as amended from time;
<b>GDPR SPOC</b>	shall have the meaning set forth in <u>Article 18.3.2</u> ;
<b>Global NDA</b>	means the “Single DA and ID Coupling Observership and Non-Disclosure Agreement” to which the Parties are party and which entered into force on 23 February 2016;

<b>Go-Live</b>	means the start of the operation by a Party of the Single Intraday Coupling;
<b>Governance and Development Decisions</b>	has the meaning set forth in Article 4.5.2;
<b>ICC</b>	means the International Chamber of Commerce;
<b>IDA</b>	means the intraday auction mechanism described in Annex 1 « Methodology for pricing intraday cross-zonal capacity » to ACER’s Decision n° 01/2019 of 24 January 2019 on establishing a single methodology for pricing intraday cross-zonal capacity, as amended from time to time ;
<b>IDOA</b>	means the Intraday Operations Agreement between the NEMOs and TSOs, setting forth their rights and obligations in respect of the implementation of CACM with respect to the Single Intraday Coupling that requires the cooperation of TSOs and NEMOs at European level, including the common operation and further development of the Single Intraday Coupling;
<b>Intellectual Property Right or “IPR”</b>	means any intellectual property right or other (property) right throughout the world, in all media, now existing or created in the future, for all versions and elements, in all languages, and for the entire duration of such rights, arising under applicable law, contract, or otherwise, and whether or not registered, registrable or perfected, including (a) rights in all inventions, discoveries, utility models, patents, reissues of and re-examined patents, or patent applications (wherever filed and wherever issued, including continuations, continuations-in-part, substitutes, and divisions of such applications and all

	<p>priority rights resulting from such applications) now existing or hereafter filed, issued or acquired; (b) rights associated with works of authorship, including database rights, copyrights, moral rights, copyright applications, copyright registrations, synchronization rights, mask work rights, applications and registrations; (c) rights in computer software and programs, source codes, or business methods; (d) rights in materials; (e) rights associated with trade marks, service marks, trade names, internet domain names, business names, logos, trade dress and the applications for registration and the registrations thereof; (f) rights relating to the protection of trade secrets, know-how and/or other Confidential Information; (g) design rights, whether registered or unregistered; and (h) rights analogous to those in this definition and any and all other proprietary rights relating to intangible property;</p>
<b>Joint Governance</b>	has the meaning set forth in Whereas J.;
<b>Joint Matters</b>	means any topic and/or issue that falls within the scope of both the SIDC and the SDAC;
<b>Legal Provision</b>	means any applicable mandatory (including public policy) legislation or regulation or any mandatory decision of a competent authority, including the terms, conditions and methodologies as required under such legislation or regulation;
<b>Local Arrangement</b>	<p>means:</p> <ul style="list-style-type: none"> <li>(a) any agreement and/or consensus of opinion, whether in writing or orally; or</li> <li>(b) any Legal Provision or decision,</li> </ul>

	which applies to a subset of the Parties (as well as third parties as the case may be);
<b>Member State</b>	has the meaning set forth in Article 4.6.3;
<b>Monthly Report</b>	means the report which details a Party’s monthly costs which is submitted to the TSO SC for approval;
<b>NEMO</b>	means the nominated electricity market operator, as defined in article 2, 23 of CACM;
<b>Non-Operational Parties</b>	means a Party for which Go-Live has not yet taken place pursuant to IDOA;
<b>NRAs</b>	means the respective national regulatory authorities designated at national level on the basis of article 35 of Directive 2009/72/EC of the European Parliament and the Council of 13 July 2009 concerning common rules for the internal market in electricity and repealing Directive 2003/54/EC or, in case of a country for which this directive does not apply, the national regulatory authorities designated at national level by similar legal provisions;
<b>Observer</b>	means a TSO that is not a Party to the Agreement and may be granted certain rights as mentioned in Article 11;
<b>Operational Decisions</b>	means decisions or actions taken as described in Article 4.5.2.;
<b>Operational Parties</b>	means the Parties for which Go-Live has taken place pursuant to IDOA;

<b>Party</b>	means any entity having signed or acceded to the Agreement, as identified on the identification pages or in an adherence agreement;
<b>Paying Party(ies)</b>	has the meaning set forth in Section 1.1.6, 2.c) of Appendix G;
<b>Personal Data</b>	means any information qualified as personal data pursuant to article 4(1) of GDPR;
	[REDACTED]
<b>QMV</b>	has the meaning set forth in recital K.;
<b>Quarterly Account</b>	has the meaning set forth in Section 1.1.6, 2. b) of Appendix G;
<b>Quarterly Report</b>	has the meaning set forth in Section 1.1.6, 2.a) of Appendix G;
<b>RIO</b>	means Rules of Internal Order attached as Appendix F;
<b>Rollback</b>	has the meaning set forth in Exhibit 16 (Rollback Procedure) IDOA;
<b>Section</b>	means a section of Appendix G;

<p><b>Second TCID Amendment</b></p>	<p>means the agreement between the Parties whereby a second set of amendments has been added to the Agreement;</p>
<p><b>Service Level Agreements or “SLAs”</b></p>	<p>has the meaning set forth in Article 5.2;</p>
<p><b>Service Provider</b></p>	<p>means the service provider that has supplied the XBID System and provides maintenance and hosting services for it, at the date of signature of the Agreement [REDACTED]</p>
<p><b>Shipping Module or “SM”</b></p>	<p>shall mean the module of the XBID Solution providing information from trades concluded within XBID. The Shipping Module receives and processes data from the shared order books and the capacity management modules, enriches and filters the data and makes it available to the defined recipients;</p>
<p><b>SIDC TSOs-Only Common Costs</b></p>	<p>shall have the meaning set forth in Appendix G (Cost sharing, monitoring and settlement of SIDC TSOs-Only Common Costs);</p>
<p><b>Single Day Ahead Coupling or “SDAC”</b></p>	<p>shall have the meaning set forth in article 2, 26° of CACM;</p>
<p><b>Single Intraday Coupling or “SIDC”</b></p>	<p>shall have the meaning set forth in article 2, 27 of CACM;</p>
<p><b>Target Model</b></p>	<p>has the meaning as set forth in recital A.;</p>

<b>TCDA</b>	has the meaning as set forth in recital J.;
<b>Third TCID Amendment</b>	means the agreement between the Parties whereby a third set of amendments has been added to the Agreement;
<b>TSO</b>	means a transmission system operator having signed or adhered to the Agreement, as identified on the identification pages;
<b>TSO Budget Monitoring Work Group or “TSO BM WG”</b>	Is the body assigned by TSO SC to execute the tasks described in Appendix G.
<b>TSO High Level Meeting or “TSO HLM”</b>	has the meaning set forth in Article 4.1.1.;
<b>TSO MCSC Secretary</b>	has the meaning set forth in Section II of the Appendix F (Rules of Internal Order);
<b>TSO Market Coupling Steering Committee or “TSO MCSC”</b>	means the steering committee as referred to in Article 4;
<b>TSO Vote</b>	has the meaning set forth in Article 4.2.1.i);
<b>Voting Member</b>	means the Party that in accordance Article 4.5. is entitled to vote on the concerned decision;
<b>Working Day</b>	means any day other than a Saturday and a Sunday in which banks are open to the public for general business in the country or city of the Party that needs to perform the obligation, except if provided otherwise;
<b>XBID</b>	means cross border intraday;

<b>XBID B2B Agreement</b>	means the XBID TSOs & PXs Back to Back Agreement, entered into by the Parties on March 1 <sup>st</sup> 2015 and amended with effective date July 1 <sup>st</sup> 2016;
<b>XBID Market APCA</b>	means the XBID Market All Party Cooperation Agreement, entered into by certain Parties on July 15 <sup>th</sup> 2014, as amended by the first amendment to the XBID Market APCA on July 1 <sup>st</sup> 2015 and by the adherence and second amendment to the XBID Market APCA on December 1 <sup>st</sup> 2015;
<b>XBID Market APCA ID SC</b>	means the intraday steering committee under the XBID Market APCA;
<b>XBID Solution</b>	means the overall solution, including amongst others the high level architecture and system set-up, general specifications, systems (hardware and software) and algorithms, terms and procedures, required for the cooperation as described in Exhibit 4 IDOA;
<b>XBID System</b>	means the software and information and communication technology (ICT) applications (incl. hardware if any), as well as all relevant documentation pertaining thereto, developed by the Service Provider based on the requirements provided by certain NEMOs and TSOs, which is to be used for the performance of the Single Intraday Coupling to interact with amongst others the local trading systems of the NEMOs and TSOs' systems;
[REDACTED]	[REDACTED]

**2. Technical glossary:**

<b>Capitalised Term</b>	<b>Definition</b>
<b>Affected Party/Parties</b>	NEMO(s) and/or TSO(s) which is/are affected by the reported issue(s);
<b>Allocation</b>	Attribution of the Cross Zonal Capacity;
<b>Allocation Constraints</b>	The constraints to be respected during capacity allocation to maintain the transmission system within operational security limits and have not been translated into cross-zonal capacity or that are needed to increase the efficiency of capacity allocation;
<b>Allocation Information</b>	Data exchanged as part of the Allocation process;
<b>Allocation on Behalf</b>	A special variation on the regular allocation process, where the allocation by the TSO is made on behalf of a Market Participant or a TSO;
<b>Already Allocated Capacity (AAC)</b>	Total power capacity that has been assigned for the trade after the results of the market trading session;
<b>Backup (BUP) procedure</b>	Procedure that describes the backup actions and workarounds that are available in order to overcome any issue without (significant) risk for breaching the applicable deadline;
<b>Balance Responsible Party</b>	The role that is responsible that the supply of energy corresponds to the anticipated consumption of energy in its balance area during a given time period and financially regulates for any imbalance that arises;

<b>Balancing Group</b>	A set of users in the Capacity Management Module of the XBID System, corresponding to companies;
<b>Bug fix</b>	A solution for an issue where maintenance is needed;
<b>Business Day</b>	A measurement of time that refers to any day in which normal business is conducted. This is generally considered to be Monday through Friday and excludes weekends;
<b>Capacity Calculation Calculator</b>	The entity with the task of calculating cross-zonal capacity, at regional level or above and of managing the validation process of the capacity calculation;
<b>Capacity Calculation Region</b>	The geographic area in which coordinated capacity calculation is applied;
<b>Capacity Management Module (CMM)</b>	A system containing up-to-date information on available cross-zonal capacity for the purpose of allocating intra-day cross-zonal capacity;
<b>Central Change Administrator (CCA)</b>	The role in charge to coordinate the Change Control Procedure. Unless otherwise agreed by within the OPSCOM, such role is selected on a yearly rotational basis among the members of the OPSCOM;
<b>Central European Time (CET)</b>	Standard time which is 1 hour ahead of the Coordinated Universal Time (UTC+01:00).  All countries in the CET time zone observe DST (UTC+2) from 02:00 am on the last Sunday of March until 03:00 am on the last Sunday of October;
<b>Change</b>	An alteration, small or large, through which a Component becomes different;

<b>Clearing Price</b>	The price determined by matching the highest accepted selling order and the lowest accepted buying order in the electricity market;
<b>Clearing System</b>	the CCP's IT system used to perform the task of clearing and settlement of all matched orders where the CCP acts as counter party to market participants;
[REDACTED]	[REDACTED]
<b>Common Grid Model</b>	A Union-wide data set agreed between various TSOs describing the main characteristic of the power system (generation, loads and grid topology) and rules for changing these characteristics during the capacity calculation process;
<b>Component</b>	A piece of software, hardware, reference data, XBID Operational Procedures or document (e.g. functional documentation) subject to this Change Control Procedure;
<b>Contingency</b>	The identified and possible or already occurred fault of an element, including not only the transmission system elements, but also significant grid users and distribution network elements if relevant for the transmission system operational security;
<b>Continuous Trading Matching Algorithm</b>	The algorithm used in single intraday coupling for matching orders and allocating cross-zonal capacities continuously;

<b>Contract Halt/Allocation</b>	<p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p>
<b>Contract Modification</b>	<p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p>
<b>Coordinated Capacity Calculator</b>	<p>The entity or entities with the task of calculating transmission capacity, at regional level or above;</p>
<b>Coordinated Net Transmission Capacity Approach</b>	<p>The capacity calculation method based on the principle of assessing and defining ex ante a maximum energy exchange between adjacent bidding zones;</p>
<b>Cross-border and XB Nomination</b>	<p>A schedule representing the commercial exchange of electricity between market participants in different scheduling areas;</p>
<b>Cross Border Trading service halt</b>	<p>[REDACTED]</p> <p>[REDACTED]</p>
<b>Cross-Zonal Capacity (CZC)</b>	<p>The capability of the interconnected system to accommodate energy transfer between bidding zones;</p>
<b>Day-Ahead Firmness Deadline</b>	<p>The point in time after which cross-zonal capacity becomes firm;</p>
<b>Day-Ahead Market Gate Closure Time</b>	<p>The point in time until which orders are accepted in the day-ahead market;</p>
<b>Day-Ahead Market Timeframe</b>	<p>The timeframe of the electricity market until the day-ahead market gate closure time, where, for each market time unit, products are traded the day prior to delivery;</p>

<p><b>Directional Halt/Allocation</b></p>	<p>[REDACTED]</p>
<p><b>Explicit Allocation</b></p>	<p>The allocation of cross zonal capacity only, without the energy transfer;</p>
<p><b>Explicit Market Participant</b></p>	<p>The entity or entities making use of the mechanism to allocate capacity through Explicit Allocation;</p>
<p><b>External commercial trade schedule</b></p>	<p>A schedule representing the commercial exchange of electricity between market participants in different scheduling areas;</p>
<p><b>External Communication</b></p>	<p>Email communication flow from the NEMOs and/or TSOs to Market Participants;</p>
<p><b>Fallback procedure</b></p>	<p>Procedure that is triggered when a deadline:</p> <ul style="list-style-type: none"> <li>- CZC and allocation constraints submission deadline</li> <li>- Allocation deadline</li> <li>- XB nomination deadline</li> <li>- Publication of results</li> </ul> <p>is (very likely to be) breached;</p>
<p><b>Firmness</b></p>	<p>A guarantee that cross-zonal capacity rights will remain unchanged and that a compensation is paid if they are nevertheless changed;</p>
<p><b>Flow</b></p>	<p>The allocated capacity per direction and per Scheduling Area Border to each ID trade and import/export shipper pair according to local shipping business rules;</p>
<p><b>Flow-Based Approach</b></p>	<p>A capacity calculation method in which energy exchanges between bidding zones are limited with</p>

	power transfer distribution factors and available margins on critical network elements;
<b>GCT</b>	The point in time where cross-zonal capacity allocation is no longer permitted for a given market time unit;
<b>GOT</b>	The point in time when Cross-Zonal-Capacity between bidding zones is released for a given market time unit and a given bidding zone border;
<b>High-Level (Functional) Architecture</b>	Description of the system landscape, including the interfaces and data flows related to the Single Intraday Coupling and the associated processes;
<b>Hot Fix</b>	A solution for an issue where no maintenance window is needed;
<b>Hourly Order</b>	A product for continuous intraday coupling for constant energy delivery and for a period not exceeding one hour;
<b>Hub Nomination</b>	A schedule representing the commercial exchange of electricity within a scheduling area (=Delivery Area) between different market participants;
<b>Implementation Manager</b>	The role identified in the Implementation Plan as responsible for the implementation of the Change;
<b>Implementation Plan</b>	The form to be filled in that describes how the system will be tested, deployed, installed and transitioned into an operational system;
<b>Import Shipper, Export Shipper</b>	The entity or entities with the task of transferring net positions between different CCPs;

<p><b>Incident</b></p>	<p>An unwanted event [REDACTED]                  [REDACTED]                  [REDACTED]</p>
<p><b>Incident Management Tool</b></p>	<p>[REDACTED]                  [REDACTED]                  [REDACTED]                  [REDACTED]</p>
<p><b>Incident Reporter</b></p>	<p>[REDACTED]                  [REDACTED]                  [REDACTED]                  [REDACTED]                  [REDACTED]</p>
<p><b>Individual Grid Model</b></p>	<p>A data set describing power system characteristics (generation, load and grid topology) and related rules to change these characteristics during capacity calculation, prepared by the responsible TSOs, to be merged with other individual grid model components in order to create the common grid model;</p>
<p><b>Interconnector</b></p>	<p>Transmission line which crosses or spans a border between countries and which connects the national transmission systems of the countries;</p>
<p><b>Internal commercial trade schedule</b></p>	<p>A schedule representing the commercial exchange of electricity within a scheduling area between different market participants;</p>
<p><b>Internal Communication</b></p>	<p>Email communication flow between the NEMOs and TSOs;</p>

<b>Intraday Cross-Zonal Gate Closure Time</b>	The point in time where cross-zonal capacity allocation is no longer permitted for a given market time unit, as defined in article 2, 39° CACM;
<b>Intraday Cross-Zonal Gate Opening Time</b>	The point in time when cross-zonal capacity between bidding zones is released for a given market time unit and a given bidding zone border, as defined in article 2, 38° CACM;
<b>Intraday Market</b>	Market timeframe between Intraday Cross Zonal Gate Opening Time and Intraday Cross Zonal Gate Closure, where commercial transactions are executed prior to the delivery of traded products;
<b>Intraday Market Timeframe</b>	The timeframe of the electricity market after intraday cross-zonal gate opening time and before intraday cross-zonal gate closure time, where for each market time unit, products are traded prior to the delivery of the traded products, as defined in article 2, 37° CACM;
<b>Issue</b>	The cause, or assumed cause, of an Incident;
<b>Last Hour Flow (LHF)</b>	Traded capacity of the Last Hour of the previous day, necessary due to any ramping restrictions and optimizing volume coupling calculation;
[REDACTED]	[REDACTED]

<b>Light Notification</b>	A request for Change to XBID procedures or documents subject to this Change Control Procedure where the Change has no material effect on the procedure or document. This is intended for grammar or other small non-intrusive changes with no associated implementation activities, or no material implications for the rights and obligations of the Parties, besides issuing a new version of the procedure or document;
<b>Local</b>	A level that is not common to all Parties of the Single Intraday Coupling;
<b>Local Change Administrator (LCA)</b>	The role appointed by each XBID Member as single point of contact for the Party, being involved for the purpose of the Change Control Procedure;
<b>Local Tools</b>	The IT Systems of individual Parties;
<b>LTP/hub</b>	This is the functional entity of a PX operating in a specific scheduling area;
<b>Maintenance Window</b>	A period of time designated in advance, during which preventive maintenance that could cause disruption of service may be performed;
<b>Market Congestion</b>	A situation in which the economic surplus for single day-ahead or intraday coupling has been limited by cross-zonal capacity or allocation constraints;
<b>Market Coupling Operator (MCO) Function</b>	The task of matching orders from the day-ahead and intraday markets for different bidding zones and simultaneously allocating cross-zonal capacities, as defined in article 2, 30 <sup>o</sup> CACM;

<b>Market Coupling (MC)</b>	Implicit auction process to allocate the transmission capacities in a defined region;
<b>Market Participant (MP)</b>	Entity authorized by a NEMO to submit Orders;
<b>Market Time</b>	Central European summer time or central European time, whichever is in effect;
<b>Market Time Units</b>	The period for which the market price is established or the shortest possible common time period for the two bidding zones, if their market time units are different;
<b>Matched Orders</b>	All matched, buy and sell, orders by the price coupling algorithm or the continuous trade matching algorithm;
<b>Matching</b>	The trading mode through which sell orders are assigned to appropriate buy orders to ensure the maximisation of economic surplus for single day-ahead or intraday coupling;
<b>Matching results</b>	All matched, buy and sell, orders within a trade made by the price coupling algorithm or the continuous trade matching algorithm;
<b>Micro releases</b>	A new release of the software with multiple hotfixes that can be installed through a maintenance planned on short notice and with a reduced number of testing phases <span style="background-color: black; color: black;">XXXXXXXXXX</span> ;
<b>Modification</b>	A request for complex Changes, with a medium/high Risk category, affecting multiple Components, or Components which are under the responsibility of more than one Party;
<b>Necessary Party/Parties</b>	Party/Parties whose presence and active cooperation is required during the IC in order to find the solution

	to the issue(s). This can be a NEMO or TSO or service provider;
<b>NEMO Modification</b>	A request for complex Changes (only affecting the SOB and the NEMOs), with a medium/high Risk category, affecting multiple NEMO Components, or Components which are under the responsibility of more than one NEMO but with no impact to the TSOs;
<b>Net Position (NP)</b>	The netted sum of electricity exports and imports for each market time unit for a bidding zone;
<b>Net Transfer Capacity (NTCs)</b>	The maximum exchange program between two areas compatible with security standards applicable in both areas and taking into account the technical uncertainties on future network conditions;
<b>Nominated Electricity Market Operator (NEMO)</b>	An entity designated by the competent authority to perform tasks, as defined in CACM, related to single day-ahead or single intraday coupling;
<b>Nomination</b>	The notification of schedules to related TSOs;
<b>Nominating Parties</b>	The entities that perform the Nomination process;
<b>Nomination On Behalf</b>	Nomination on behalf means the creation of (parts of) a Schedule by a TSO or another entity, instead of a Nomination by the respective Scheduling Agent;
<b>Non-Standard Intraday Product</b>	A product for continuous intraday coupling not for constant energy delivery or for a period exceeding one market time unit with specific characteristics designed to reflect system operation practices or market needs, for example orders covering multiple market time

	units or products reflecting production unit startup costs;
<b>Normal (NOR) procedure</b>	Procedure that describes the normal processes and the normal timeline of the Single Intraday Coupling;
<b>Notification</b>	A request for i) Changes, with a very low/low Risk category, affecting a small number of Components owned by one or more Parties and ii) Changes only to local items with no identified impact on common items;
<b>NTC Method</b>	The capacity calculation method based on the principle of assessing and defining ex ante a maximum energy exchange between adjacent bidding zones;
<b>Operational Security Limits</b>	The acceptable operating boundaries for secure grid operation such as thermal limits, voltage limits, short-circuit current limits, frequency and dynamic stability limits;
<b>[REDACTED]</b>	[REDACTED]
<b>Order</b>	An intention to purchase or sell energy or capacity expressed by a market participant subject to specified execution conditions;
<b>Originator</b>	Party submitting an RFC;

<b>Other (OTH) procedure</b>	Procedures that deal mostly with organization and communication aspects;
<b>Physical Congestion</b>	Any network situation where forecasted or realised power flows violate the thermal limits of the elements of the grid and voltage stability or the angle stability limits of the power system;
<b>Post-Coupling Processes</b>	Processes that follow after the calculation and validation of the Market Coupling Results, mainly related to the Scheduled Exchanges and the Congestion Income;
<b>Pre-Coupling</b>	Processes prior to the calculation of the Market Coupling Results, related to the CZCs and Allocation Constraints;
<b>Price Clearing</b>	The price determined by matching the highest accepted selling order and the lowest accepted buying order in the electricity market;
<b>Ramping Constraints</b>	Term used for the maximum change of the power flow on an Interconnector between two consecutive hours;
<b>Reliability Margin</b>	The reduction of cross-zonal capacity to cover the uncertainties within capacity calculation;
<b>Remedial Action</b>	any measure applied by a TSO/NEMO and/or several TSOs/NEMOs, manually or automatically, in order to maintain operational security and/or the Single Intraday Coupling;
<b>REMIT UMM</b>	Urgent Market Messaging (UMM) that have been developed to comply with the Regulation on Wholesale Energy Market Integrity and Transparency (REMIT);

<b>Request for Change</b>	A completed form included in the Change Control Procedure XBID_JOINT_OTH_03 that is required for triggering the Change Control process;
<b>Risk Case</b>	A specific deviation from the normal process, the handling of which is explicitly covered in the Normal and Backup procedures;
<b>Scenario</b>	The forecasted status of the power system for a given timeframe;
<b>Schedule</b>	A reference set of values representing the generation, consumption or exchange of electricity for a given time period;
<b>Scheduled Exchange</b>	An electricity transfer scheduled between geographic areas, for each market time unit and for a given direction;
<b>Scheduled Exchange Calculator</b>	The entity or entities with the task of calculating scheduled exchanges;
<b>Scheduled Exchange Verification</b>	For a B2B physical clearing, Explicit and Implicit Allocation Results between the 2 involved Scheduling Areas have to be known by the TSO post-coupling systems. With this information TSOs check bilaterally information consistency between the allocated capacities on each side of the border;
<b>Scheduling Agent</b>	The entity or entities with the task of providing schedules from market participants to TSOs, or where applicable third parties;
<b>Scheduling Area Border</b>	A border between two scheduling areas having one or more Interconnector(s);

[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
<b>SFTP</b>	File Transfer Protocol using certain secure connection;
<b>Shared Order Book</b>	A module in the continuous intraday coupling system collecting all matchable orders from the NEMOs participating in single intraday coupling and performing continuous matching of those orders;
<b>Shipping Agent</b>	Entity or entities performing the function of transferring the Net Position(s) between different CCPs;
<b>Shipping System</b>	Shipping Agent's IT system used to perform the task of transferring net positions between different CCPs;
<b>Structural Congestion</b>	Congestion in the transmission system that can be unambiguously defined, is predictable, is geographically stable over time and is frequently reoccurring under normal power system conditions;
<b>Ticket System</b>	System for registering issues in the Single Intraday Coupling;
<b>Trade</b>	One or more matched orders, as defined in article 2, 25° CACM;

<b>TSOs Post-Coupling Module</b>	The TSO's IT system used to perform the task of receiving schedules from Scheduling Agents, creating schedules on behalf of Scheduling Agents and verification of these schedules;
<b>TSOs Pre-Coupling Systems</b>	The TSO's IT system used to perform the task of sending cross zonal capacities and allocation constraints to the CMM;
