Cherry Yuen, MESC Meeting 7th Dec 2022

Data classification level:
[Open within ENTSO-E]

For Info

Market suspension & restoration TSO survey - overview

- A TSO-survey has been conducted on the status of the rules for suspension and restoration of market activities focussing on articles 35 and 36 of the NC ER
- 38 TSOs provided response to the Self-Assessment Questionnaire 2022
- The assessment considered answers from 29 TSOs which have the rules already approved by their NRA.
- 9 TSOs that do not have the rules approved yet:
 - derogations (4 TSOs non-EU)
 - the regulation is N/A (1 TSO)
 - the regulation is in drafting or approval phase (1 drafting + 1 sent for approval)
 - not approved rules in place (2 EU TSOs)
- Presentation in MESC and SO CG meetings in Dec 2022

Market suspension & restoration TSO survey - findings

- Details of the findings to be first aligned with ACER
- Major differences (allowed by current legislation):
 - Suspension or not – from no suspension at all to suspension of all market activities
 - Time delay in suspension – from immediate action to 13 hours
 - Percentage in load and generation disconnection with respect to establishing threshold for market activities suspension

More detailed analyses required to understand economic and technical impact of harmonisation
