

6th ACER - ENTSO-E workshop: electricity long-term flow-based allocation

Friday, 22 March 2024 | 09:00 - 12:00 CET

Online, MS Teams platform

DRAFT AGENDA

Indicative time	Webinar items	
08:50 - 09:00	Webinar open for log-in	Starts promptly at 09:00
09:00 - 09:10	Introductory Remarks Zoran VUJASINOVIC, ACER	
09:10 - 09:20	Long-term flow-based allocation: implementation - timeline and basic information ENTSO-E (speakers tbc)	
09:20 - 10:00	Long-term flow-based allocation: simulation results ENTSO-E (speakers tbc)	
10:00 - 10:30	Discussion	
10:30 - 11:00	Market participants' views (speakers tbc)	
11:00 - 11:50	Discussion	
11:50 - 12:00	Closing Remarks Martin POVH, ACER	

Webinar objective

This workshop aims to:

- Provide stakeholders with an in-depth understanding of the long-term flow-based allocation process.
- Present and discuss the simulation results.
- Introduce the expected timeline for the go-live of the single allocation platform that will support the long-term flow-based capacity allocation process.
