

Frequently Asked Questions

This document aims at answering the most common questions raised by Project Promoters

My question is related to...

- [The online Projects Platform](#)
- [The Cost-Benefit Assessment of projects](#)
- [TYNDP 2024 timeline and milestones for promoters](#)
- [Where to find information on TYNDP 2024](#)
- [Other topics](#)

My question is related to the online Projects Platform

[Return to the table of contents](#) ↑

How to get a login and password to access the TYNDP 2024 Projects Platform?

Promoters who do not have access to the platform can request a login and password to the Single Point of Contact (SPOC) giulio.lapera@entsoe.eu.

Where can I access the TYNDP Projects Platform?

TYNDP Projects Platform can be accessed following this [link](#).

Where can I find information on how to create/edit a project in the platform?

ENTSO-E will release a user guide for promoters before the projects' submission window.

What is the field in the projects platform "This project is no longer relevant for TYNDP (e.g. commissioned, cancelled etc)"?

It appears for every project and you should tick it only if the project is no longer relevant for the TYNDP process. This field is meant to allow promoters who have multiple projects in our database to easily see which of their projects are still relevant, and which are commissioned/cancelled/drafts projects or projects created in the platform by mistake.

Can several promoters view and edit the same project (of which they are jointly promoters) in the TYNDP Projects Platform?

Yes, it is possible for several promoters to view a project on the TYNDP project submission form online. To provide access to other promoters of your project, please contact us with the project number and the email address of the person who needs access to the project.

My question is related to the Cost-Benefit Assessment of Projects

[Return to the table of contents ↑](#)

To what extent does TYNDP 2024 include battery storage projects?

We welcome applications from battery storage projects. The project has to provide at least 225 MW installed capacity and must have a storage capacity that allows a net annual electricity generation of 250 GWh/year.

Will hybrid offshore projects be considered in the TYNDP 2024 CBA Implementation Guideline?

Yes, the Implementation Guideline contains a part dedicated to hybrid offshore projects and the different modalities to assess them.

Will it be possible to submit project-level indicators in TYNDP 2024 like in TYNDP 2022?

Yes, it is possible. The CBA Implementation Guidelines, expected to be released for public consultation in end July 2023, will contain further information on the available indicators. ENTSO-E will share further information in end 2023/early 2024 about when and how to submit project-level indicators.

Which studies will ENTSO-E perform on projects in TYNDP 2024?

All projects included in the TYNDP 2024 are assessed, with either a market-only or a full (market and network) CBA, depending on the commissioning year of the project (see the table below).

Project commissioning year	Time horizon	Scenario	Studies
Until 2034 included	2030	Central scenario	Full CBA including network computations (losses)
		Variance scenarios	Market-only CBA (except B6)
	2040	All scenarios	Market-only CBA (except B6)
2035 and above	2040	All scenarios	Market-only CBA (except B6)

My question is related to TYNDP 2024 timeline and milestones

[Return to the table of contents](#) ↑

Disclaimer: Dates provided in this section are tentative and might suffer deviations. The corresponding dates on each of the steps and events will be announced via the [Promoters' corner](#).

When does ENTSO-E plan to publish the draft list of projects admitted in the TYNDP2024?

The provisional list of projects admitted to the TYNDP 2024 is planned to be published in November 2023.

An updated list will be released with the TYNDP 2024 for public consultation in August/September 2024.

After submission to TYNDP, what are the next steps for project promoters?

- Publication of the draft TYNDP 2024 Project Portfolio (Q4 2023)
- Webinars for project promoters on the next steps of the TYNDP 2024 process (dates will be announced on the [Promoters' corner](#).)
- Webinar for project promoters on project level indicators (Q4 2023 / Q1 2024)
- Webinar for project promoters on project sheets (Q2 2024)
- Project-level indicators' submission window for promoters (Q2/Q3 2024, TBC)
- CBA results are shared with project promoters for a two-week review period (end Q2/Q3 2024)

- Release of TYNDP for public consultation (Q3 2024)

When will ENTSO-E publish final scenarios data?

Final scenarios data are expected to be available in Q1 2024.

When does ENTSO-E plan to share CBA results with project promoters?

CBA results are expected in late Spring/Summer of 2024. Upon review of these results, project promoters may have questions or queries. Promoters may send questions and comments by email or request a bilateral meeting with ENTSO-E's TYNDP team by emailing the SPOC giulio.lapera@entsoe.eu. This request should include a brief description of the topics and issues that the project promoter wishes to discuss and the project promoter's upcoming availability.

The project promoter missed the deadline to submit its project. Is it still possible to add the project to TYNDP 2024?

No, it is no longer possible. The promoter can only submit the project in TYNDP 2026.

My question is related to where to find information on TYNDP 2024

[Return to the table of contents](#) ↑

Where can I find the recordings and slides of the webinars for project promoters?

Slides and recordings of past webinars will be available in the [Promoters' corner](#).

Will ENTSO-E organise other webinars and/or workshops dedicated specifically to project promoters, and on what topic?

Yes, we will organise webinars and/or workshops to provide practical live demonstration and answer questions on topics including project sheets and project-level indicators. Webinars/workshops will be announced on tyndp.entsoe.eu/events, on the [Promoters' corner](#) and via emails to promoters.

I would like to know more about TYNDP 2024 Stakeholder Engagement Plan

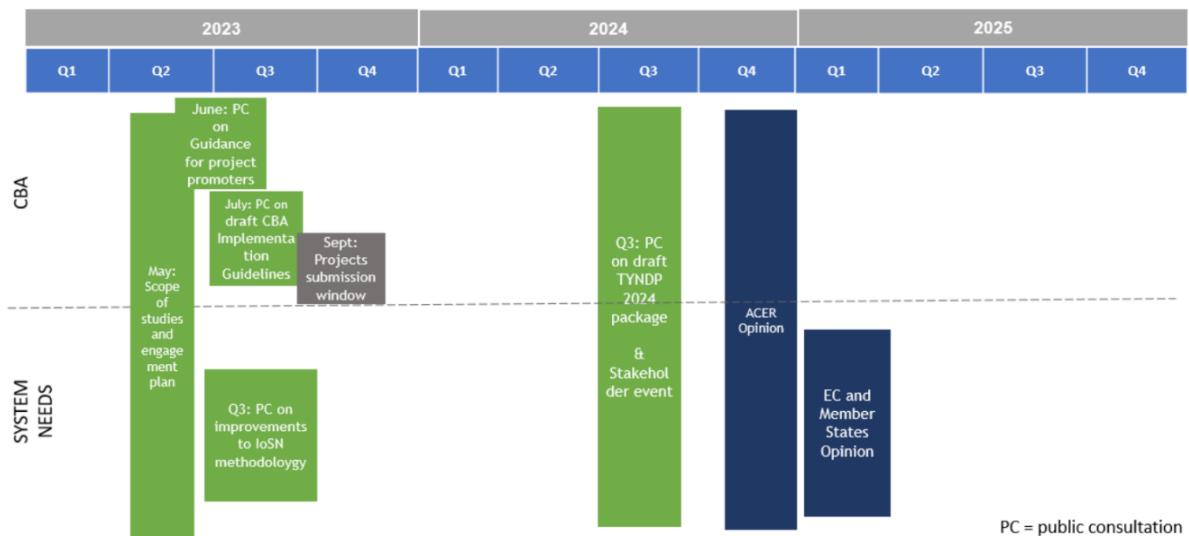

Figure 2. TYNDP 2024 - Overall Stakeholder Engagement for project promoters timeline

Early public consultation will take place on the proposed scope of studies and planned engagement (this consultation) and on the methodologies of the two main studies.

Webinars or workshops will also take place at key steps of the TYNDP process, including at the time of release for consultation of the draft CBA Implementation Guidelines, during the consultation on the improvements to the system needs study methodology, and of course during the consultation on the draft TYNDP 2024. These events, and other to be confirmed, will be announced on [TYNDP website](#) and in ENTSO-E’s weekly newsletter.

Where to find information about projects present in TYNDP 2024?

Information will be available in due time, first with the draft list of projects in Q4 2023, then in the online project sheets in Q3 2024.

My question is related to other topics

[Return to the table of contents](#) ↑

What exactly is the promoter’s Single Point of Contact?

The Single Point of Contact (SPOC) is the contact person for each project, who is responsible to receive communications from ENTSO-E for all promoters of that project.

What if a project promoter wishes to remove his/her project from TYNDP 2024?

The project promoter should inform ENTSO-E SPOC (giulio.lapera@entsoe.eu) if they wish to remove a project from TYNDP 2024.
